## Instructions for electronically transmitted printing documents (supplement to advertising price list)

**ISDN address:** +49 (0)2831/4554 Leonardo Pro/MAC

**Please send a copy of the ad motif and the name of the file folder  
(for remote data transmission) by fax to No.. +49 (0)2835/ 9606-60**

**Data carrier:** DOS and MAC; CD-ROM  
**Operating systems:** Macintosh OS; Windows 98 / NT / 2000 / XP / Vista  
**Software:** QuarkXPress; Photoshop; Free Hand; Illustrator; Coral Draw  
**Fonts:** Please specify all fonts used in your documents and store these on your data carrier. The supplied fonts will be used exclusively for processing of your data.

**Imported files:** Store in original format on the data carrier.  
**Graphic images:** If the data have been compressed, please enclose the decompression program module.

**Images/resolution:** CMYK/ 300 dpi

**Colour ads/  
proofs:** For each ad to be processed, please enclose either a **binding colour proof** or a b/w proof of each colour. For 4-colour ads we require a standardized **digital proof / Cromalin** or a print-out with a standardized media control strip. Colour proofs made on a colour copier are not binding for printing.

**Warranty:** The printing companies working on our behalf can only process the data delivered on the data carriers supplied by you. We do not assume any liability for deviations in text, images and colours.
